

Passive voice - mixed tenses: exercise 5

Key with answers

Interviewer: Your new Smartphone Z is being sold now. Does it bring any new features?

Steve Hobs: Yes, it does. Smartphone Z was launched last week with all the revolutionary features which had been developed for the previous Smartphone Y. And two new functionalities have been added now to generation Z.

Interviewer: Could you give us more details?

Steve Hobs: There is no home button in Smartphone Z. The home screen is accessed by tapping on the screen.

Interviewer: And the second functionality?

Steve Hobs: Unlocking the device is done with a new voice recognition system. It means that your phone can recognize your voice and it unlocks if you ask it to do so.

Interviewer: It is something like the facial recognition system in other phones.

Steve Hobs: Exactly. But the voice recognition system has been designed for Smartphone Z because your voice, unlike your face, never changes.

Interviewer: Are you planning any other revolutionary features for the next generation of your smartphones?

Steve Hobs: Next year we want to release a phone which, apart from other functions, will be used as a microwave oven.

Interviewer: Pardon?
