Exercise 9

Why Samuel wakes up early

Every day little Samuel **gets up** early in the morning. He **hurries** downstairs and into the backyard.

Where is she? Yes, over there. His black and white kitten always **plays** in the grass. Little Samuel **catches** her with both hands, **grabs** her under her soft belly, **lifts** her into the air and **kisses** her on her pink nose. Then he **carries** her into the kitchen to give her a small bowl of milk. But sometimes he just **watches** his kitten running on the grass. What a fast cat she is! She never **misses** a mosquito that **flies** low above the ground.
